

PRESS RELEASE

Another Fresh Showroom to open in Oslo at Studio Skøi

Earlier this year the furniture company, Four Design, announced the opening of a brand-new showroom in Düsseldorf. At the end of this month, they celebrate yet another showroom release in Aarhus, Denmark. And this is the announcement of the official opening of a new exciting showroom in Oslo, the 6-8th of September, in connection with Designers' Saturday.

The new showroom is situated in the brand new and refurbished Studio Skøi, formerly known as Navet. Studio Skøi is also home to top of the line international design brands such as Bang&Olufsen, Boa Flooring, Erik Jørgensen, Flos, Haraldssøn, Kahrs/Ehrenborg, Montana, Muuto, Nordesign, Optimal Innredning, and Shelby/Vola.

Embodying the clean crisp lines of Scandinavian Design, the new and improved showroom showcases timeless pieces of furniture, striking style statements, and soft formal spaces. It also showcases classic seating, table and concept solutions. And some new exciting additions to the product range. All of which are designed fully to meet the requirements for modern working life.

EU-Ecolabel – Now on selected FourSure® chairs

Striving to do things better Four Design is focused on creating durable furniture concepts produced with care for the planet. Strong beliefs in shared responsibility and to be as sustainable as possible while contributing to a greener global development, is key.

FourReal® A

FourReal® A is a clever, space-saving solution with multi-purpose functions for spaces in all scales. The FourReal® A is suitable for break out areas and dining facilities and different occasions. By simply adding lighting or biophilia you get an enclosing and comfortable spot for dining, collaborating or solo work. FourReal® A is designed by Four Design.

Design philosophy

FDA - Function, Design, and Aha is a unique philosophy to ensure focus on three essential things; People. Place. Purpose. It drives everything the company does so that every design and furniture combines an unrivalled functionality, ingenious design and a healthy dose of wonder, which shapes good environments into great experiences.

About Four Design A/S

Four Design A/S is part of Ocee International Group Ltd. with Ocee Design Ltd. and Race Furniture Ltd. as sister companies in the UK. The three organizations develop and produce furniture of high functionality, design, and comfort for the professional market, private as well as public companies, educational institutions, conference facilities, theatres, etc. in Europe. Distribution is directly through agents and retailers.
