

February 2020

PRESS RELEASE

One Step further towards furnishing the world better!

Four Design presents more products with the EU Ecolabel accreditation at the Stockholm Furniture Fair taking place between the 4th and 8th of February 2020.

Four Design's certified range now includes the FourCast@2 chairs in colours Ebony Black and Anthracite chairs with black or anthracite legs, in addition to their FourSure@ chairs with EU Ecolabel. These products are evaluated on their whole lifecycle, from procurement to end-of-life, ensuring the sustainability of each stage of life. Last year a range from the FourSure@ chairs received the EU Ecolabel accreditation.

The EU Ecolabel accreditation

There are strict requirements for EU Ecolabel to ensure that consumers are receiving truly sustainable furniture. The FourCast@2 chair, in particular, has been awarded this certification for conforming to these requirements. For example, 50% of the shell is composed of recycled post-production plastic. There are limitations on substances and volatile organic compounds which ensures minimal harm to people and the environment.

Designed by acclaimed Danish Architect duo Strand+Hvass, the FourCast@2 chair is made of few components designed to be assembled and disassembled, easing recycling at end-of-life effortlessly. This product achieves Four Design's aim of being at least 95% recyclable, aiding the cradle-to-cradle concept and the reuse of materials.

Let's Furnish the World Better

The way Four Design aims to furnish the world better is constantly looking for ways to reduce their environmental impact. With their commitment to the UN Sustainable Development Goals, in particular, Goal 12: Responsible Consumption and Production, their ambition is to grow their EU Ecolabel certified range, to guarantee sustainable furniture.

They prioritise quality and tests to ensure the strength, durability and stability of products. High quality and durability allow the product to have a long life, reducing the number going to waste. Their 5-year warranty on all products ensures that any faults that exist that could shorten the products life are reconciled.

Let's furnish the world better

About Four Design

Four Design has a rich history running back to its roots as a coachbuilder in the 1930's. Today, Four Design is a modern furniture company with sales throughout Europe, Asia and North America. Four Design develops furniture concepts for current and future generations. Our furniture is characterised by superb functionalism and a simple, minimal design with an international appeal. We conceptualise ideas that reflect our values and create a common thread throughout our collection. Our products are developed to encourage interaction between people and to create harmony in the interiors, no matter where they are being used.

Four Design is a part of Ocee International Group and group hug with companies Ocee Design and Race Furniture. We cater for a single office to a global HQ, public spaces to co-working spaces, from universities to conference halls, from canteens to libraries, from the back office to the front of house.
